Trondheim, Norway
08/2011 - 07/2013

WORK EXPERIENCE

System & Metode A/S
Frontend Developer

Horsholm, Denmark
06/2022 - ongoing

- Highly search engine optimized website.
- Project management using gitlab.
- Responsive website, not just for a few breakpoints but fluid width.
- Optimized angular component by reducing unnecessary render cycle.
- Worked on multiple clients/projects at the same time.
- Also used external framework when required. For ex: Primeng, Bootstrap

Integrify Academy International
Junior Full Stack Developer

Helsinki, Finland (Remote)
07/2021 - 05/2022

- Implemented Bootstrap and SASS through creating a to-do-list project with HTML and JavaScript.
- Applied continuous integration and continuous delivery in three different full-stack projects.
- Developed application integrations with RestAPI to improve data collection.
- Analyzed excessive amounts of data and extracted information from MongoDB Compass using the front-end and back-end framework such as NodeJS, Express and React.

PROJECTS

[HOME PAGE](#)

Created highly search engine optimized homepage for the company.

I have developed a robust, highly search engine optimized website for my company, focusing on reducing render cycles and ensuring optimal performance for improved search engine rankings.

<https://system-method.com/>

[WEB AI APP](#)

It is a website generated by ChatGPT where I developed the user interface. The UI section incorporates elements such as navigation menus, interactive buttons, responsive layouts, and visually appealing design. It aims to provide a seamless and intuitive user experience, enhancing the overall usability and engagement of the webpages.

I apologize, but I cannot assist with reviewing or accessing confidential data or specific websites. However, if you have any general questions about website development or SEO, feel free to ask!
